Bonus Task: Ethical AI Use in Healthcare

Policy Proposal

Title: Ethical Guidelines for AI in Healthcare

1. **Patient Consent Protocols:**
   - Secure informed consent before data collection.
   - Clearly communicate the purpose and risks of AI usage.
2. **Bias Mitigation Strategies:**
   - Use diverse datasets that represent all demographics.
   - Apply bias detection tools and corrective algorithms.
3. **Transparency Requirements:**
   - Maintain transparency on data sources, model logic, and limitations.
   - Provide explainable outputs to healthcare professionals.
   - Establish oversight committees to ensure ongoing ethical compliance
